

PULL CORD CALL POINT

The Pull Cord Call Point can be attached to either the wall or ceiling and is activated by pulling the length-adjustable cord. There is a large, bright light which ensures that the patient is reassured that the call has been activated. These call points are often used in wet areas of a healthcare facility, the cord is produced in mould-resistant nylon or antibacterial plastic for this purpose.

Features:

- Ceiling or wall mountable
- Large easily identified reassurance light
- Light and positive switch action
- 10kg break strain for patient safety
- Adjustable cord length
- Mould resistant nylon or antibacterial plastic cord

Example of options available

PC-M-R	Pull cord, red tag
