

The World's Most Certified Nurse Call System

If you're interested in "world's best practice" for patient safety certification and compliance at your Hospital choose CarePlus™

CarePlus™ meeting international standards

CarePlus™ is certified in the world's most stringent certification processes. This improves patient safety and professional indemnity. NiQ Health has insured that CarePlus™ is certified in Australia, USA, Canada, European Union, Germany, New Zealand and Japan. This complements the trend for harmonisation of standards internationally.

Software Certification/Listing

FDA Approved

CarePlus™ software is approved by the US Food and Drug Administration and is Medical Device Data System (MDDS) 510K listed.

Specific Nurse Call Hardware Certifications

UL 1069

UL Standard for Safety Hospital Signaling and Nurse Call Equipment – Seventh Edition; Reprint with revisions through and including January 22, 2009.

EN 60601-1-2

This collateral standard applies to electromagnetic compatibility of medical electrical equipment and medical electrical systems. The object of this collateral standard is to specify general requirements and tests for electromagnetic compatibility.

AS3811

CarePlus™ meets and exceeds Australian Standards for hard-wired patient alarm systems.

DIN 0834

Certification needed for call systems in hospitals, nursing homes and similar institutions. According to this standard, call functions must always have unlimited priority over all other services; emergency operation must be guaranteed

Electrical Safety Standard Certifications
