

## CAREPLUS™ CONTACT TRACING TAG

The CarePlus™ Contact Tracing Tag is essential for infection prevention and control in healthcare settings, as stressed by the coronavirus pandemic. RTLS (Real-Time Location System) dual active technology RF (Radio Frequency) and IR (Infra-Red) provides clinical-grade contact tracing capabilities, tracing all contacts within a facility if someone tests positive for a disease such as COVID-19. By wearing this tag, staff protect not only each other, but vulnerable patients, their friends and families, and the wider community to help track possible outbreaks or clusters. Acute and aged care facilities of any size will benefit from simpler contact tracing technologies, especially during busy periods. The CarePlus™ Contact Tracing Tag delivers a full facility response to assist previously implemented protocols, such as PPE, physical distancing, testing, self-isolating where applicable, and good hand hygiene to prevent possible contamination. As a standalone product, this is a vital solution offering an expert contact tracing method as recommended by domestic and international governments. CarePlus™ Contact Tracing Tag is a significant part of the CarePlus™ technology suite, delivering greater accountability and transparency for the industry.

### Australian office:

3/17 Macadam Place,  
Balcatta, Perth  
Western Australia 6021

t: +61 8 9446 8499  
e: [info.aus@niq-health.com](mailto:info.aus@niq-health.com)

## Main Benefits:

- Greater staff confidence in already very challenging times.
- Families more reassured, especially in aged care settings.
- Easy to view time logged room locations.
- Easy to match data with staff rosters.
- Optimised time management.
- Standalone product or with a packaged solution.

## Features:

- Efficiently carried without hassle: pinned to the staff member.
- Rooms and areas visited are displayed on a database for future contact tracing analysis.
- Simple way to prove contacts through room-accurate tracing procedures.
- Activated upon movement, similar to CarePlus™ Asset Tracking.
- Provides details of every room visited with the tag.
